

LEMON[®]

DRAINAGE SERVICES LTD

A Fresh Approach to Drainage Services

We are based in Chichester in West Sussex, from where we are able to provide a wide range of drainage services and solutions. These services are tailored to each individual site and system with packages to suit both commercial and domestic clients.

SERVICE AND MAINTENANCE

We offer a range of **Service Packages** from our 'Standard Annual Service' agreement to our 'LemonAid' all inclusive agreement. Our team of professional engineers have the expertise, knowledge, tools and spares to carry out the servicing of all makes of Treatment plant, Pump Stations, Rain Water Harvesters and associated equipment.

TANKER SERVICES

Lemon can arrange and carry out the emptying of the smallest to the largest of tanks in the remotest of sites. As licensed waste broker, we can arrange sewage waste disposal together with emptying of Grease Traps and Separators.

Available 24 hours, 365 days a year.

INSTALLATION AND REPAIR

From a simple repair, through to a system rebuild or new system supply and installation, Lemon are the only people to call. From a system specification through to a full turn key service, we will take care of you from start to finish.

WHY US?

At Lemon we have a very simple philosophy: **Provide high quality services at competitive rates.**

With over 30 years industry experience coupled with our exceptional workmanship (which is fully insured and guaranteed), it's hard not to choose us.

This is our fresh approach to Drainage Services.

DRAINAGE SERVICES LTD

A Fresh Approach to Drainage Services

APPROVED

We are accredited service partners to **Kingspan** and the approved and recommended agents for **WTE Ltd** and **PremierTech** for the supply and installation/servicing of Drainage Systems.

Kingspan

SafeContractor

Alcumus

PREMIER TECH CHAS

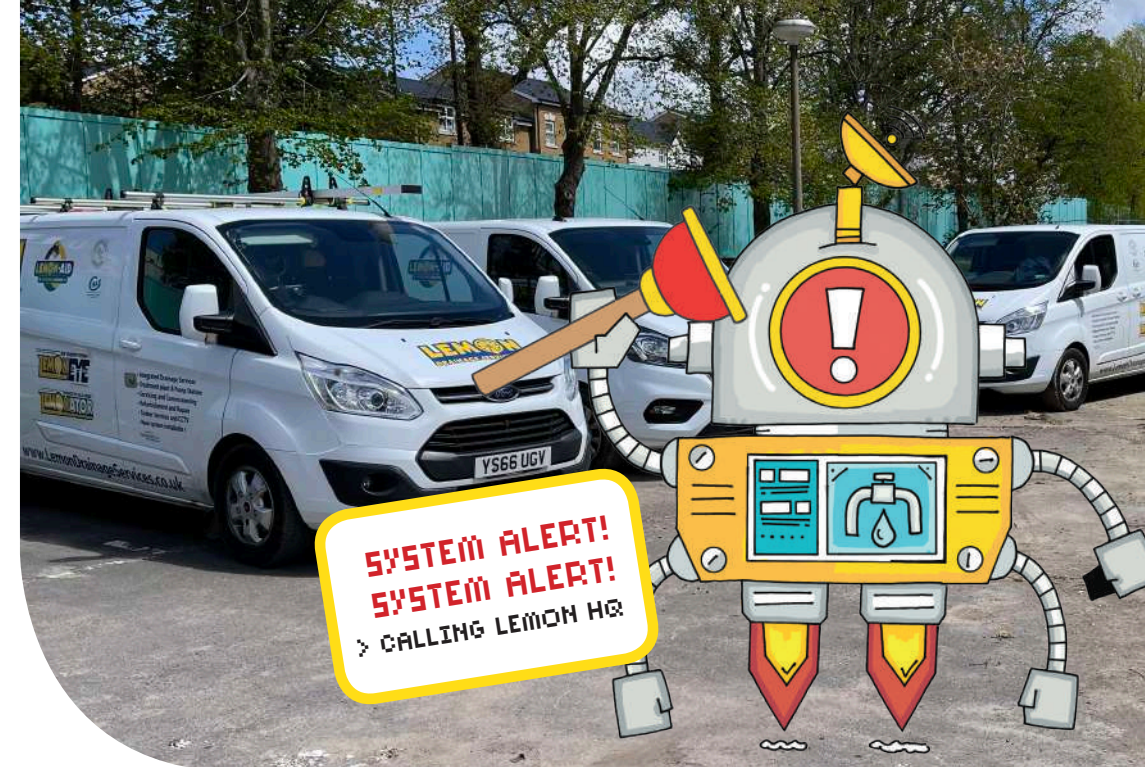

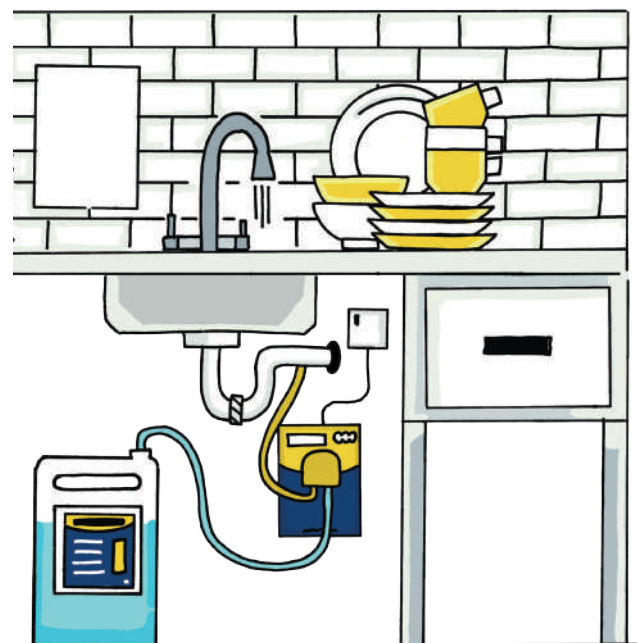

DEGRADES FATS, OILS, GREASE AND OTHER KITCHEN WASTE.

Lemonator solves the drainage problems caused by grease in commercial kitchens, problems can no longer be solved by pouring harsh caustic chemicals or acids down the drain which is dangerous for the user and the environment and detrimental to internal and external drains.

L100 Fluid

Our L100 Fluid does not contain any emulsifying agents, caustics or solvents, solely using bacteria for the biological breakdown of fats, oils and grease.

WHY WAIT FOR A PROBLEM TO BECOME SERIOUS AND COSTLY.

Let our GSM technology tell you and us when a fault arises. LemonEye will tell us immediately of an issue allowing for a timely and cost-efficient repair. Our experience tells us, the longer an issue persists, the more it will cost to correct.

FOR A FRESH APPROACH TO SERVICING.

For routine servicing of treatment plant and pump stations we offer our market leading Standard Service Agreement. For complete peace of mind, we also offer our exclusive LEMON-AID all-inclusive service agreement. All priced competitively. We can tailor packages to suit all customers.
